

APPLICATIONS UNDER EXAMINATION

CALIBRACHOA

**CALIBRACHOA**  
(*Calibrachoa*)

**Proposed denomination:** 'KLECA18067'  
**Application number:** 20-10195  
**Application date:** 2020/05/13  
**Applicant:** Klemm & Sohn GmbH & Co. KG, Stuttgart, Germany  
**Agent in Canada:** BioFlora Inc., St. Thomas, Ontario  
**Breeder:** Anita Stöver, Stuttgart, Germany

**Description:**

PLANT: semi-upright growth habit, medium to tall

SHOOT: medium to long

LEAF BLADE: medium to long, narrow, narrow acute apex, no variegation, upper side dark green

PEDICEL: very long

CALYX LOBE: medium length, medium width

FLOWER: double type, narrow to medium width

COROLLA: weak degree of lobing, medium conspicuousness of veins

COROLLA LOBE (INNER SIDE): medium orange (RHS 25B) when newly opened, light orange (RHS 24B to 25C) when fully opened, light orange (RHS 24C-D) when aged, no secondary colour, dark red (more orange than RHS N45A) at transition to corolla tube, truncate apex, absent or very weak colour change during growing season

**Origin and Breeding:** 'KLECA18067' was bred and developed by the breeder Anita Stover, an employee of Klemm + Sohn GmbH & Co. KG, in Stuttgart, Germany. The new variety originated from a controlled cross conducted in June 2014 between the proprietary female parent designated as 'CA-2014-4052' and the male parent variety 'KLECA16334'. From the resulting progeny, seedlings were selected in May 2015 based on plant growth habit, vigour, branching, early flowering and flower colour pattern. Selected seedlings were evaluated in greenhouse trials from March to May of 2016 to 2019 for the above criteria and performance. 'KLECA18067' was selected for commercialization in May 2019.

**Tests and Trials:** The detailed description of 'KLECA18067' is based on the UPOV report of Technical Examination, application number 2020/1073, purchased from the Community Plant Variety Office in Angers, France. The trials were conducted by the Bundessortenamt in Hannover, Germany in 2021. The colour determinations were made using the 2015 Royal Horticultural Society (RHS) Colour Chart.
